

LINE CARD

BioBlend lubricants made their debut in the field in 2001. Since then, we've continued to innovate and expand our product line to include not only biobased lubricants, but also food grade and synthetic lubricants. BioBlend's goal is to help provide ecologically responsible, environmentally friendly products and solutions for numerous industries while also providing a line of general purpose lubricants and greases for consumer use. BioBlend biodegradable products are designed to provide superior lubrication over a broad range of operating conditions by combining highly stable vegetable base oils with unique additive technologies to create products that provide excellent thermal and oxidative stability while delivering superior anti-wear and anti-corrosion protection. And because BioBlend products are readily biodegradable, they offer these performance advantages while adhering to the strictest standards of environmental responsibility.

BIODEGRADABLE LUBRICANTS

- Aerosols
- Air Tool Lubricants
- Asphalt Release Oils
- Chain and Bar Lubricants
- Chain and Cable Lubes
- Concrete Form Release Oils
- Cutting Fluids
- Drill Rod Greases
- Extreme Pressure Greases
- Food Grade Lubricants
- Gear Lubricants
- General Purpose Greases
- Heavy Duty EP Greases
- Hydraulic Fluids
- Machine Oils
- Metal Working Fluids
- Multi-Purpose Lubricants
- Penetrating Oils
- Plunger Packing Greases
- Plunger Packing Lubricants
- Rock Drill Oils
- Specialty Products

MARKET SEGMENTS

- AGRICULTURE | CONCRETE
- CONSTRUCTION | DRILLING
- FOOD PROCESSING | FORESTRY
- GOVERNMENT | LANDSCAPING
- METALWORKING | MINING
- MUNICIPALITIES
- OILFIELD SERVICES
- PARKS | PORT & MARINE
- SKI | VINEYARD

FOOD GRADE LUBRICANTS

- Aerosols
- Air Tool Lubricants
- All Purpose Greases
- Chain and Cable Lubes
- Cutting Fluids
- Gear Oils
- Hydraulic Fluids
- Specialty Products
- Synthetic Lubricants
- White Oils
- Wipe Down Oils
