

Procetac 12 and 19

PROCETAC 12 and **19** are premium oil, solvent refined from paraffinic mineral oil. Those light-colored process oils have good resistance to oxidation. Their high viscosity index allows it to be used over a wide range of temperatures. They are compatible with most oil/polymer mixtures and do not contain any additives.

ADVANTAGES

- Low coloration and color stability;
- Good oxidation resistance;
- Separate readily from water;
- High viscosity index
- Excellent compatibility in most oil-based mixtures.

TYPICAL CHARACTERISTICS

PROPERTIES	TEST ASTM	12	19
Product code			
Color	D1500	0,5	0,5
Density at 15°C, Kg/L	D1298	0,848	0,850
Pour Point, °C (max.)	D97	-15	-15
Flash Point, °C (min.)	D92	170	185
Viscosity			
cSt at 40°C	D445	11,0	19
cSt at 100°C	D445	2,78	3,9
Viscosity index	D2270	90	95
Copper strip corrosion at 100°C, 3 Hours	D130	1a	1a

Specifications for the viscosity @ 40°C are ± 10% of the typical value
